## SPECIFICATION

DISPOSABLE NITRILE-VINYL POWDER-FREE GLOVES, LILA.

<b>MATERIAL</b>	AERO Exacomp® includes disposable gloves made from nitrile/vinyl. This is a copolymer characterised by properties similar to that of nitrile gloves, but thanks to the vinyl component, these gloves are cheaper overall than gloves made from 100% nitrile. The gloves are even slightly finer, and enable a perfect grip. The material is maximally adhesive to the surface of the hand, which is why they are suitable for work which requires maximum sensitivity. They have a wide variety of uses in gardening, laboratories and industry.
